Lifecycle Service

25 Years of
Experience

2026 Portfolio

More than a showcase manufacturer.

Holic creates custom display solutions that help food brands present, preserve, and sell their products better.

With every project, Holic brings together design, manufacturing, installation, and after-sales support to create display systems built around each customer's products, space, and business needs.

*Creating Better Food Display
Experiences*

COMPANY INTRODUCTION

Custom Display Solutions for Bakery, Coffee & Retail Brands

For more than 25 years, Holic has helped food and beverage brands create attractive, functional, and reliable display environments that enhance customer experience and product presentation.

Our work combines design consultation, in-house manufacturing, installation, and after-sales support to help customers create display solutions that fit their products, space, and operation.

WHAT WE DO

- Custom Refrigerated Display Systems
- Bakery & Pastry Display Solutions
- Coffee Shop Merchandising Displays
- Chocolate & Dessert Display Systems
- Retail & Supermarket Food Displays
- Heated Food Displays
- Salad Bar & Fresh Food Displays
- Service, Maintenance & Technical Support

WHY HOLIC

- 25+ Years Industry Experience
- Fully Customisable Solutions
- In-House Manufacturing Capability
- Nationwide Installation & Service Support
- Trusted by Leading F&B Brands Across Indonesia
- Lifecycle Support from Design to Maintenance

More than a showcase manufacturer, Holic is a long-term partner from design consultation to manufacture

OUR APPROACH

From Concept to Long-Term Performance

At Holic, every project begins with understanding how consumers interact with the display environment. Rather than offering standard products only, we develop solutions that fit each customer's operational requirements, store concept, and merchandising objectives.

The result:

A display system that balances aesthetics, product preservation, operational efficiency, and long-term reliability.

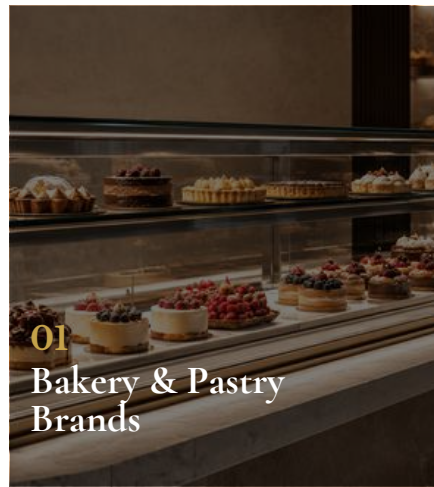

Design | Manufacture | Installation | Service Support | Future Monitoring

A complete lifecycle approach for growing F&B brands.

Industry Solutions

*Different industries.
Different realities.
Different display strategies.*

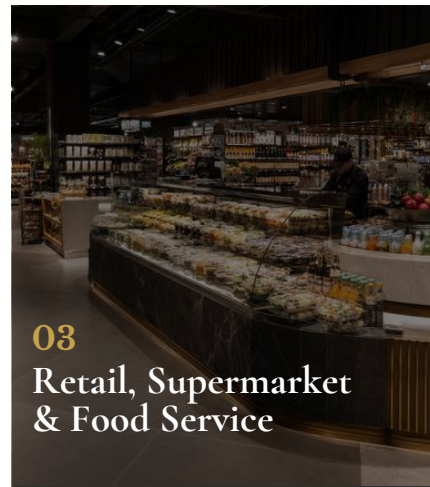

01
Bakery & Pastry
Brands

CORE REALITY
**Judged before
they are tasted**

02
Coffee Chains &
Dessert Boutique

CORE REALITY
**Every centimetre
must help sell**

03
Retail, Supermarket
& Food Service

CORE REALITY
**Built for volume,
flow and reliability**

One display system does not fit every business.
That is why Holic designs around the way your business actually works.

INDUSTRY SOLUTIONS

Bakery & Pastry Brand Solutions

Because your products are judged before they are tasted.

CUSTOMER REALITY

In bakery and pastry retail, the showcase is not just equipment - it is the stage where freshness, texture, colour, and craftsmanship are judged. A beautiful cake can lose its value if the display feels dull, crowded, poorly lit, or visually clear.

WHAT MATTERS MOST

- **Freshness** - products must look fresh from morning to evening
- **Lighting** - need to make colour and texture more appetising
- **Glass clarity** - affects how premium the product appears
- **Premium presentation** - the showcase should match the store's interior and brand value
- **Visibility** - cakes and pastries need clear visibility from multiple angles

HOLIC SOLUTION FOCUS

Holic designs display systems that make bakery products look more desirable while protecting their presentation quality. We focus on visibility, freshness, lighting, glass clarity, shelf flexibility, and premium finishing.

*Designed to make bakery products look fresher,
more premium, and easier to sell.*

INDUSTRY SOLUTIONS

Coffee Chain & Dessert Boutique Solution

Because every centimetre of counter space must help sell.

CUSTOMER REALITY

In coffee shops and dessert boutiques, purchase decisions happen quickly. Customers are ordering, waiting, looking around, and deciding whether to add one more item. The display must attract attention instantly without blocking staff movement or slowing service.

WHAT MATTERS MOST

- **Compact Footprint** - limited counter space must be used efficiently
- **Impulse Purchase** - display layout should encourage add-on purchases
- **Staff Access** - staff must access and replenish items quickly
- **Service Speed** - products need strong visibility near the ordering area
- **Consistency** - multi-outlet brands need consistent visual presentation

01 SEEN

Visible at the order point

02 CHOSEN

Makes add-on purchase easier

03 SERVED

Fast access for staff

HOLIC SOLUTION FOCUS

Holic develops compact display systems that balance product appeal, counter efficiency, and service workflow. The goal is to help brands sell more from a smaller footprint while maintaining a refined and consistent brand image.

BEST-FIT SOLUTIONS

The counter is a selling zone. Compact display strategy for faster decisions, easier service and stronger add-on sales.

Designed to turn limited counter space into a high-impact selling zone.

INDUSTRY SOLUTIONS

Retail, Supermarket & Food Service Solutions

Because high-volume operations need displays that work as hard as they look.

THE OPERATING LENS

CAPACITY — FLOW — RELIABILITY

A showcase that looks attractive on day one is not enough. In high-volume environments, the system must keep working every day.

THE OPERATING LENS

In retail and food service environments, displays face heavier traffic, larger product volume, longer operating hours, and more frequent handling. A showcase that looks attractive on day one is not enough - it must remain reliable, easy to clean, and practical for daily operation.

WHAT MATTERS MOST

- **Capacity** - must support higher product turnover
- Layout should guide customers clearly
- **Durability** - materials must withstand continuous use
- **Maintenance Access** - and cleaning must be practical
- **Temperature Reliability** - performance must remain dependable
- **Customer flow** - must be clear and stay efficient

HOLIC SOLUTIONS

Holic designs durable display systems for demanding operations, combining capacity, clear merchandising, reliable performance, and long-term serviceability.

BEST-FIT SOLUTIONS

Designed for operations where capacity, durability, and reliability matter every day.

SHOWCASE CUSTOMISATION

Built Around Your Product, Space & Brand

The models in this catalogue are starting points. Holic display systems can be tailored to fit your product category, store concept and operational workflow.

FULLY CUSTOMISABLE

A showcase should fit the business,
not the other way around.

Following are the general customizable elements for public reference. Details will be recommended during consultation.

01
DIMENSIONS

Custom sizing to fit product type, counter layout and store space

02
FUNCTION

Refrigerated, ambient, heated, grab-and-go, back storage, self-service or multifunctional display.

03
SHAPE & STRUCTURE

Straight, curved, corner, island, countertop, built-in or project-specific configurations.

04
MATERIALS &
FINISHING

Selected materials, colors, panels, trims and finishing details.

05
AMBIENCE

Lighting options to enhance product presentation and store atmosphere.

06
CLARITY

Glass options selected to support visibility, clarity, product appeal and display function.

FROM STANDARD MODEL TO PROJECT-SPECIFIC SOLUTION

From product presentation to operation workflow, Holic develops display solutions around the needs of each project.

PRODUCT RANGE

Showcase models designed
for different display needs.

MODEL

NA2

COUNTERTOP DISPLAY CASE

SPECIFICATIONS

DIMENSIONS	POWER
750(L) x 510(W) x 830(H)	440 watt / 220V / 50Hz
900(L) x 510(W) x 830(H)	460 watt / 220V / 50Hz
